Community Partnerships

Community connections, partnerships and collaboration are central to the mission of the College. Hawai'i Community College is responsive to the needs of the community and works proactively with the community on workforce training and economic development. Advisory councils in each of our training areas advise faculty of training needs and new developments in the field. These councils are listed under "Curricula and Programs." In addition, the Provost of the College seeks advice from community and business leaders on ways the College can assist in economic development for the community. Two of the College's federally-funded programs also have community-based advisory committees that guide the development of those projects. Members of these groups are:

Mahalo Award 2001

Each year the administration of Hawai'i CC recognizes a community-based group or company whose contributions have positively impacted our students and improved our educational programs by presenting the Mahalo Award in appreciation for their support. This year KTA Super Stores was nominated for the award by the Associated Students of Hawai'i CC in recognition of KTA's long standing support of student co-curricular programs. In addition, KTA has partnered with academic programs to provide meaningful work-based learning experiences for students, and has been generous in donations to the College's events and programs. The faculty, administration, and students are grateful for the partnership with KTA Super Stores.

Barry Taniguchi and Derek Kurisu (wearing leis) of KTA are awarded Hawai'i Community College's Mahalo Award by Provost Sandra Sakaguchi and outgoing student government treasurer Victorino "Teddy" Justo.
