Training stations are selected according to the student’s career objectives. Seminars and experiences on the job are planned and supervised by the CVE Coordinator, program instructors, and the employer. The maximum number of credits that can be earned is 24. The maximum number of credits applicable to a degree is determined by each program.

Independent Studies/Directed Studies

Course Numbers: 99, 199, 299 (1-3 variable credits)

Students may earn academic credits through Independent/Directed Studies in any of the areas in which credit courses are offered or to pursue other individual academic interests not included in credit courses. Forms are available online at www.hawaii.hawaii.edu/admissions/faculty-forms

The form must be completed prior to registration. Independent/Directed Studies require:
1) sponsorship of the appropriate instructor;
2) a description of the work to be undertaken; and
3) approval of the appropriate division chairperson.

A description of the work to be undertaken must contain: an outline of the study topic, specification of the work to be done, the type and frequency of faculty-student contact, the amount of credit to be given, and a statement of the evaluative criteria to be used by the faculty member.

For Independent/Directed Studies:

Learning Communities

Learning Communities, an innovative approach to educational delivery, emphasize integrated, interdisciplinary learning through a wide range of activities including field trips, study groups, book seminars, simulations, videotaping, and projects which enliven the learning environment. In a Learning Community, courses are clustered around a common theme to provide a focus for the semester’s exploration and integration by a team of faculty and students. Each cluster of courses has at least one course which fulfills a core or area requirement. Learning Communities are designed to introduce students to various academic subjects, to support students in making connections amongst those subjects, to encourage students to apply knowledge gained in the classroom to their daily lives, and to support students’ involvement in learning.

Grading for English and Mathematics Developmental Corequisite Courses

Grading for English and Math corequisite courses is Credit/No-Credit (CR/NC). Students who pass the 100-level course will earn credit for the corequisite course regardless of their grade (CR/NC) in the developmental corequisite course.

For the 100-level course, the grading option is A-F and CR/NC. The CR/NC option is only if a student does not intend to use the course (such as Eng 100 or Math 103) to fulfill a graduation or program requirement. Courses used to fulfill graduation and program requirements must be taken for letter grades.

Which English Course Should I Take?

English (Eng) courses cover two different areas: Reading and Writing, and different progressions for native speakers of English and non-native speakers of English (ESL). If you have any questions, see an advisor or counselor.

Placement is required for all Eng courses. Other Hawai‘i CC courses may have Eng prerequisites too, so closely check the prerequisites for each course to see what must be taken before enrolling in that course. For example, Psy 100 requires Eng 21 or ESL 21 or Eng 22 or (ESL 22G and ESL 22W) or placement in Eng 100 or placement in Eng 100E or placement in Eng 102.

Also, carefully review the Eng requirements for your major. See your program advisor if you have any questions.

Which Math Course Should I Take?

Mathematics (Math) courses cover two different areas: Vocational and Liberal Arts. If you have any questions, see an advisor or counselor.

Placement is required for all Math courses. Other Hawai‘i CC courses may have Math prerequisites too, so closely check the prerequisites for each course to see what must be taken before enrolling in that course. For example, BioC 141 requires Math 82X or placement in Math 100; and Eng 21 or ESL 21 or placement in Eng 102.

Also, carefully review the Math requirements for your major. See your program advisor if you have any questions.
