

UHCCP #4.203 Institution Set Standards

I. Purpose

This policy establishes the framework for institution set standards for student achievement. These standards are one component of maintaining quality within the community colleges and are required by accreditation eligibility requirements and United States Department of Education regulations.

The standards established in this policy apply to all community colleges within the University of Hawai'i Community College system.

II. Related University Policies

There are no related University policies.

Accrediting Association for Community and Junior Colleges (ACCJC) requirements are defined as follows:

Eligibility Requirement #11 – Student Learning and Student Achievement
“The institution defines standards for student achievement and assesses its performance against those standards...”

Standard I.B.3

The institution establishes institution-set standards for student achievement, appropriate to its mission, assesses how well it is achieving them in pursuit of continuous improvement, and publishes this information.

While the referenced standards and eligibility requirements do not apply to Maui College, the policy, standards, and responsibilities established in this policy are applicable to Maui College.

III. Standards

Each standard shall have a baseline or minimum level of achievement. Additionally each standard shall have an aspirational target for improvement. These aspirational targets shall be aligned with system strategic plan targets.

The standards adopted are as follows:

Standard 1 – Course Completion

Standard 2 – Degrees and Certificates Awarded

Standard 3 – Native Hawaiian Degrees and Certificates Awarded

Standard 4 – Pell Recipient Degrees and Certificates Awarded

Standard 5 – IPEDS Student Success Rate

Appendix A
Standard Definitions and Targets

Standard 1 – Course Completion

Definition – The % of students receiving a grade of D or better in a course. The number of students in the course is defined as the number at the end of the official add/drop period.

Baseline Value – 70%

Aspirational Value – 75%

Standard 2 – Degrees and Certificates Awarded

Definition – The number of Associate Degrees and Certificates of Achievement awarded during the academic year.

Baseline Value – Established as the three-year average for academic years 2012-2015

Aspirational Value – 5% growth per year from the baseline year

Standard 6 - Licensure and Certification Examination Success Rate

Definition – The pass rate for students in a CTE program based on the number of students taking the examination. The rate must be reported for all programs where the licensure or certification examination is required for employment. Other certification examination may be reported on an optional basis.

Baseline Value – the average national or state pass rate for the examination.

Aspirational Value – a 3% improvement per year improvement in the pass rate over the previous three year average

Standard 7 – Job Placement Rate

Definition – The job placement rate reported for each career and technical education program from the Perkins annual report. The Perkins program data includes all graduates and concentrators (students who have completed a subset of program courses) who have left the program. The Perkins target is base on a negotiated level of placement within the State plan for Career and Technical Education that includes an expectation of continuous improvement. Programs with fewer than 10 students exiting the program shall not be reported.

Baseline – The Perkins established placement rate for AY2014

Aspirational Value – The Perkins established improvement rate for each subsequent year.
